SED/R16/2017/5	Sqn Ldr John Page	n/a	N/a	N/a	Object				SNP does not represent best interests of the village. Much needed housing should be developed in most advantageous areas of Sedlescombe.

SED/R16/2017/10	Mrs. Pauline Raymond	n/a	N/a	N/a	Object	Plan process			Sedlescombe Parish Council has failed to meet the basic conditions. The Parish Council has not followed the advice contained in Paragraph 047 which describes how the plan should be consulted on. The Parish Council has failed to fully follow the key stages in neighbourhood planning as described in Paragraph 080. Street Farm was not fairly compared with other sites and few of the comments made during the regulation 14 exercise were given proper consideration and respect and were not included in an amended plan. I have reached the conclusion that the Parish Council has failed in 2015/16 to conduct the neighbourhood plan process in a fair and reasonable fashion and in accordance with Government advice. Extensive supporting appendices are submitted with the representation.

SED/R16/2017/15	Mrs. Elisabeth Fowle	n/a	N/a	N/a	Support	Policy 11			Supports policy 11 to keep Street Farm as green open space.
SED/R16/2017/16	Mr. Alan Fowle	n/a	N/a	N/a	Support	Policy 11			Supports the SNP and Policy 11 because of it's beauty, views, wildlife and open space.
SED/R16/2017/17	Mr. Roy Cook	n/a	N/a	N/a	Object	Policy 5			Proposed development for housing at Sawmills should be refused - would be detrimental to his vineyard business and other local residences. Suggested use a light industrial site instead.
SED/R16/2017/18	Mr. Michael McDowall	n/a	N/a	N/a	Support	Policy 11			Supports the SNP and Policy 11 because of it's beauty, wildlife and value to community.

SED/R16/2017/20	Mr. John Brownsdon	n/a	N/a	N/a	Support	Policy 11			Fully Supports the SNP, particularly retention of Street Farm as green space. Further supplement to the representations sent at SED/R16/2017/84 (counted together as one respondent)
SED/R16/2017/21	Mr. Roy Peter Dellow	n/a	N/a	N/a	Object	The Plan			The Plan is nothing more than an attempt to push any development into open country away from the majority of people in the village.
SED/R16/2017/22	Mrs. Susan Walton	n/a	N/a	N/a	Support	Policy 3 / Policy 11			Supports the SNP. Policy 3 - intends to undertake development as outlined. Policy 11 - supports retention of land as green space.
SED/R16/2017/23	Mr. William Buckley	n/a	N/a	N/a	Object	Policy 9			Opposes development proposals at Balcombe Green. Negative impact to surrounding properties, plus limited access would create unacceptable levels of nuisance. Further supplement to the representations sent at SED/R16/2017/116 (counted together as one respondent)
SED/R16/2017/24	Mrs. Margaret Buckley	n/a	N/a	N/a	Object	Policy 9			Severe negative impact cannot be avoided. Concerned about loss of trees and wildlife habitat etc. . Building work will impact severely on residents. Further supplement to the representations sent at SED/R16/2017/186 (counted together as one respondent)
SED/R16/2017/25	Mr. C. Raymond	n/a	N/a	N/a	Object	The Plan process			The Parish Council (PC) has, from the outset, mounted a resolute campaign against any building whatsoever on the Street Farm site. Despite greatly changed circumstances no dissent has been tolerated and it has been extremely frustrating to see the Neighbourhood Planning process so clearly abused without any repercussions. Judging from the bias that clearly pervades the NP including the incomplete and directing nature of information distributed by the PC and its attempts to ignore or stifle any discussion, it is hard not to conclude that the prime objective of this NP has been predetermined from the start, i.e. "to keep Street Farm free from development of even one house". This regardless of the effect on the rest of the NP or Village. Some attachments are submitted with the representation.
SED/R16/2017/26	Mrs. Brenda Page	n/a	N/a	N/a	Object	Policy 11			Believes Street Farm development should survive appeal to Secretary of State. Large estates built at north entrance of village would have negative impact on AONB.

SED/R16/2017/27	Claire Tester	High Weald Joint Advisory Commiee	n/a	N/a	Support	Policy 1		Supports inclusion of the reference to the need to conserve the High Weald AONB, although not against development. The assumption that development will be limited to within the defined Development Boundary and those sites allocated in the Plan is not made clear in Policy 1.
SED/R16/2017/28	Mrs. Valerie Wright	n/a	N/a	N/a	Object	Policy 11		Against Policy 11 - believes it does not emphasise the housing development enough. Traffic increase will cause more problems when accessing village and school.
SED/R16/2017/29	Mrs. Carol Schollar	n/a	N/a	N/a	Support	Policy 11		Supports the SNP, particularly Policy 11. Believes that the open space near the village is valuable and the views of the residents should not be ignored.
SED/R16/2017/30	Mr. Tom Schollar	n/a	N/a	N/a	Support	Policy 11		Supports the SNP. Particularly Policy 11 - believes that this represents the views of the residents.
SED/R16/2017/31	Mr. Hugh Davidson JP		N/a	N/a	Support	Policy 11		Supports the SNP, particularly Policy 11 as it: Recognises the importance of protecting green space; Recognises other more acceptable sites for development; and reflects the views of the majority of residents. Further supplement to the representations sent at SED/R16/2017/147 (counted together as one respondent)
SED/R16/2017/32	Mrs. Maureen Harrison	n/a	N/a	N/a	no comment	-		<i>Uncompleted form submitted. Consultee was written to to explain that the form was incomplete but they did not resubmit their form.</i>
SED/R16/2017/33	Elizabeth Cleaver	Highways England	N/a	N/a	Comment	-		No specific comments on the SNP.
SED/R16/2017/34	Ms. Lindsay S.M. Fraser	n/a	N/a	N/a	Support	Policy 11		Supports the SNP and particularly Policy 11 regarding the retention of Street Farm and Red Barn Field as local green space.
SED/R16/2017/35	Mrs. Susan R.A. Fraser	n/a	N/a	N/a	Support	Policy 11		Supports the SNP, particularly Policy 11 and supporting Strategic Environmental Assessment.
SED/R16/2017/36	Mr. Terence Gregory	n/a	N/a	N/a	Support	Policy 11		Supports the whole plan, particularly development of the Sunningdale site (is owner). Also supports Policy 11 regarding Street Farm.
SED/R16/2017/37	Ms. Ruth Cowell	n/a	N/a	N/a	Support	Policy 11		Supports Policy 11 because of the importance of the Brede Valley landscape.
SED/R16/2017/38	Mr. Chris Flavin	East Sussex Council Council	N/a	n/a	Object	Policies 4, 5, 7, 8, 9, 10		<p>Land at Balcombe Green (Policy 9) re-iterate the point that it is considered unlikely that a housing development on this site could be supported from an ecological perspective. It is considered unlikely that the loss of the trees and the habitat provided by the overall site can be mitigated.</p> <p>Policies 4, 5, 7, 8, 9, 10 - When assessing potential housing sites, the Neighbourhood Plan (NP) should have taken archaeological interest into account. Five of the six housing sites are within Archaeological Notification Areas and there is a real possibility that costly archaeological mitigation works would be needed (as required by NPPF policies). Such works have the potential to impact significantly on the viability of sites. In selecting allocated housing sites the NP needs to be alert to the potential implications.</p> <p>Policies 4, 7, 8 & 9 - re-iterate the Officers recommendation for additional wording that relates to shared accesses, within Policy 4, 7 & 8. These Policies should make reference to the need for each of the housing sites to work together regarding achieving access to sites so that implementation of earlier sites do not limit the access arrangements or delivery of later sites. In the September response detailed comments were also provided for the Land at Balcombe Green (Policy 9), where a suitable route into the site would be required for both vehicles and pedestrians.</p>
SED/R16/2017/39	Mrs. Gwen Homewood	n/a	N/a	N/a	support AND object	Policies 4,6,7,8,11		Supports the SNP, but objects to policies 4,6,7 and 8. Supports policy 11 - making Street Farm a green space.
SED/R16/2017/40	Mr Alan Olin	n/a	N/a	N/a	Support			Entirely in favour of SNP as it can full the village's housing quota and protects areas of outstanding natural beauty such as the Street Farm site. Further supplement to the representations sent at SED/R16/2017/128 (counted together as one respondent)
SED/R16/2017/41	Lynsey Rigg on behalf of MJH Executive Homes ltd	Armstrong Rigg Planning	Lynsey Rigg	Armstrong Rigg Planning	Object	Policy 11		The plan has not properly assessed the merits of alternative sites so far as the SEA has ruled land at Street Farm out as a reasonable alternative and the Local Green Space designation is not compliant with the NPPF. The result is that the plan fails to meet the 'basic conditions'.
SED/R16/2017/42	Mr Richard Watson	n/a	N/a	N/a	Support	Policy 9		Supports Policy 9 - he and wife own part of land at Balcombe Green, supports development of site.
SED/R16/2017/43	Mrs Catherine Watson	n/a	N/a	N/a	Support	Policy 9		Supports Policy 9 - she and husband own part of land at Balcombe Green, supports development of site.
SED/R16/2017/44	Mr Trevor Thomas	n/a	N/a	N/a	Object	Policy 4,7, 8 & 11		It should be noted that the Parish Council appears to have orchestrated a campaign to oppose the development of Street Farm. It is questionable if the opportunity to secure ¾ of Street Farm in public ownership has been objectively publicised during the development of the Neighbourhood Plan. I believe the proposed Neighbourhood Plan is flawed without accepting the limited development of Street Farm and the generous "gift" of the site into public ownership. The inclusion of the 16 houses proposed on this site would reduce the need for the developments north of the village in policies 4,7 & 8 which are arguably more intrusive into the AONB than the proposal for Street Farm. I am opposed to these policies.
SED/R16/2017/45	Mrs Catherine Platten	n/a	N/a	N/a	Support	Policy 11		Supports the SNP, particularly policy 11 relating to Street Farm.
SED/R16/2017/46	Ailsa Vinson	n/a	N/a	N/a	Support	Policy 11		Supports the SNP, particularly policy 11 relating to Street Farm.
SED/R16/2017/47	Mr Michael Couchman	n/a	N/a	N/a	Object	Policies 1 and 9		The Neighbourhood Plan needs to be amended or rejected. Policy 9 is misrepresented as key landowners have no intention of making the site available. For some reason, the leadership of the Parish Council appears to be actively ignoring clear and consistent feedback in this regard and is still pressing for a move of the development boundary under Policy 1, which will also impact other landowners who do not wish their back gardens to also be included within the proposed new development boundary.

SED/R16/2017/48	Mrs Bethan Couchman		N/a	N/a	Object	Policies 1 and 9			The Neighbourhood Plan needs to be amended or rejected. Policy 9 is misrepresented as key landowners have no intention of making the site available. For some reason, the leadership of the Parish Council appears to be actively ignoring clear and consistent feedback in this regard and is still pressing for a move of the development boundary under Policy 1, which will also impact other landowners who do not wish their back gardens to also be included within the proposed new development boundary.
SED/R16/2017/49	Kirsten Williamson	Southern Water	N/a	n/a	Object	Policy 11 & a new proposed policy.			Cannot support the current wording of Policy 11 of the NDP. This is because it could create barriers to statutory utility providers, such as Southern Water, delivering essential infrastructure required to serve existing and planned development allocated in the District or Neighbourhood Plan. Accordingly, we propose the following amended wording and additional text to Policy 11 of the Sedlescombe NDP: Development for essential infrastructure will be supported in special circumstances, where the benefit outweighs any harm, and it can be demonstrated there are no reasonable alternative sites available. We can find no policies to support the delivery of new or improved infrastructure, which is required to serve new development identified in the Neighbourhood Plan. Without this policy provision, the Neighbourhood Plan does not meet the basic conditions necessary for a Neighbourhood Plan Our proposed policy provision supporting the delivery of utility infrastructure would address paragraphs 17 and 157 of the NPPF and enable the basic conditions necessary for a Neighbourhood Plan to be met Accordingly, we propose the following additional policy: New and improved utility infrastructure will be encouraged and supported in order to meet the identified needs of the community, subject to other policies in the development plan.
SED/R16/2017/50	Rebecca Bishop	Natural England	N/a	N/a	Object	Policy 3, 5, 9			Policy 3 - Our records show that part of this site as outlined in the NP, is Priority Habitat – deciduous woodland. The policy needs to include a reference to avoiding development on the area designated as Priority Habitat. It would be helpful to show this area on the policy site plan, included in the NP. Policy 5 - Our records show that part of this site as outlined in the NP, is Priority Habitat – deciduous woodland. To avoid possible environmental damage, the policy needs to include a reference to avoiding development on the area designated as Priority Habitat. It would be helpful to show this area on the policy site plan, included in the NP. Policy 9 - Our records show that the southern part of this site as outlined in the NP, is Priority Habitat – deciduous woodland. The policy needs strengthening to comply with the Government's target of net gain for biodiversity, so should demonstrate that deciduous woodland will be at least protected (or 'created or enhanced'). It would be helpful to also show this area on the policy site plan, included in the NP.
SED/R16/2017/51	Dr Tony Leonard	Rother District Council	N/a	N/a	support AND object	Policy 1, 2, 5, 7, 9, 10, 11,			Policy 1 & 11 - The proposed development boundary as set out in Policy 1 and Inset A of the Proposals Map should be amended insofar as it relates to land at Street Farm to include the eastern part of the site not proposed as Local Green Space. The Council's Planning Committee has considered, in detail, a planning application (reference RR/2016/1837) for 16 dwellings substantially situated to the rear of existing housing fronting Brede Lane, with the balance of the land being transferred to a public body, most to be retained permanently as open space and the western part being made available to the adjoining Primary School for additional outdoor space. It has resolved to grant planning permission. Policy 2 – Suggested policy wording amendments to provide flexibility. Policy 5 - Suggested policy wording amendments to avoid confusion. Policy 7 & 8 - Support is given to the encouragement to a shared access to serve these sites. Policy 9 - Suggested policy wording amendments to provide flexibility Policy 10 - Comments made and clarifications sought.
SED/R16/2017/52	Mrs Carol Hodgson	Sedlescombe Parish Council	N/a	n/a	no comment	Response to Rother District Councils Cabinet Report on SNP reg. 16 consultation submission.			The Parish Council acknowledges that the District Council has resolved to grant consent for a housing scheme on the land, but it has been advised that, until that consent is issued, it would be premature for the Plan to delete the proposed Local Green Space designation or to redraw the Development Boundary to accommodate the scheme. The resolution is the subject of a request to the Secretary of State to call-in the application for determination. In addition, the comments made on the Strategic Environmental Assessment in relation to Street Farm are unhelpful and are refuted. SPC submits the additional 6 examples of designated green spaces in made Neighbourhood Plans.
SED/R16/2017/53	Mr Chris Cachrimanis	n/a	N/a	n/a	Object	Entire Plan			Disagrees with whole Neighbourhood Plan in it's present form which seems to be in conflict with Street Farm.
SED/R16/2017/54	Mrs Gill Cachrimanis	n/a	N/a	n/a	Object	Entire Plan			Disagrees with whole Neighbourhood Plan in it's present form which seems to be in conflict with Street Farm.
SED/R16/2017/55	Mr John Parsons	n/a	N/a	n/a	Object	Policy 4, 7, 8 and 11, plus comments on final site assessment			Plan has allocated nearly twice the number required and have not acted in the best interests of local residents by providing so many homes. Street Farm is a missed opportunity for Sedlescombe.

SED/R16/2017/77	Mr Clifford Wallis	n/a	n/a	N/a	Object	policies 3,4,5,6,7,8,10,11		Does not support the SNP in its current form. Policies 4,7 and 8 - happy to see limited development here but does not support all three. Policies 3,5 and 6 - would support the three sites being given higher priority. Policy 10 - should not be included in the plan as a residential development.
SED/R16/2017/78	Mrs Jane Wallis		N/a	N/a	Object	Policy 4, 6, 7, 8, 10 & SEA		Policy 10 is completed against the SEA, it would reduce employment and commercial opportunities in the village. SED/R16/2017/510	Mrs Lorraine Ford	n/a	n/a	n/a	support AND object	Policy 11			Parts of the plan that I can agree with, other parts I object to because of inconsistencies. I have a problem with some of the process - circulating information to residents on at least two occasions what to write regarding Street Farm is not, in my view, acceptable. The vehement objections to the Street Farm development is baffling, and continues despite a massive scaling back. It has felt difficult to voice any support for this scheme in meetings.
