Dear Mr Worden,

**Development and Site Allocations (DaSA) Local Plan:
Initial responses to representations, Schedule of suggested Modifications and
updated Infrastructure Delivery Plan (IDP)**

I am writing to advise you that, having reviewed all the duly-made representations, the Council accepts that a number of modifications should be made to the submitted Local Plan.

These are set out in the attached Schedule and Appendices.

You will see that none of the proposed changes are fundamental to the Local Plan. However, some changes, such as where policy criteria are added or amended, may be viewed as 'main modifications', even where these are for reasons of consistency or in response to representations from the relevant agency.

Also attached is the Council's Initial Responses to Representations. This is set out as an additional column to the Summary of Representations that has already been provided to you.

The Council has just completed a review of its IDP and it is clearly appropriate that the updated IDP, as dated March 2019, is available to you; hence, this is attached.

Finally, I attach a response to the Inspector's question about the figures in the later years of the most recent housing trajectory.

All the above documents will be uploaded on to the examination page of the Council's website.

Yours sincerely,

David Marlow
