INTRODUCTION

Introduction

Rother District Council set its budget for 2015/16 at a meeting of all Members on 23 February 2015. This book shows the agreed revenue budget for each Council Service and the Council's Capital Programme. Additional information relating to the Council's financial position in 2015/16 and the Council Tax for each area in Rother is also included.

Revenue Budget

Government Funding

One of the key financial drivers remains the continued decline in Government Funding, first announced as part of the last spending review. The Coalition Government announced its final grant settlement figures for 2015/16 in December 2014.

The Councils funding from Government comes from two sources: Revenue Support Grant and retained Business Rates. From Business Rate data supplied to the Government, they have calculated the estimated amount of Business Rates the Authority is likely to retain. The actual amount of cash will change depending on recovery performance.

The settlement showed that since 2013/14, Rother's funding has reduced by nearly 25%, assuming business rate income performs as the Government expects. The Councils revenue support grant has fallen by over 42%. The table below analyses the Governments estimations:

Grant	2013/14 £	2014/15 £	2015/16 £
Revenue Support Grant (RSG)	3,119,351	2,462,250	1,710,997
Business Rate Retention (BRR)	2,075,220	2,115,541	2,173,931
Total Grant/BRR	5,194,571	4,577,791	3,884,928
Grant Reduction year on year		11.87%	13.58%
Grant Reduction from 2013/14			23.84%

New Homes Bonus

The New Homes Bonus rewards Councils for increases in their tax base and the delivery of affordable homes. This Government funding is guaranteed and cumulative over 6 years. In 2014/15, the Council received £1,025,000 and for 2015/16, a total grant of £1,300,000 is expected. This is a substantial sum of money but is time limited. It has been necessary to continue to utilise £1,025,000 based on the 2014/15 grant to maintain services. The funding is phased as follows:

<u>Year</u>	2011/12	2012/13	2013/14	2014/15	2015/16
	£'000	£'000	£'000	£'000	£'000
2011/12	385	385	385	385	385
2012/13		225	225	225	225
2013/14			160	160	160
2014/15				255	255
2015/16					275
Total	385	610	770	1,025	1,300

INTRODUCTION

The £1,300,000 of grant starts to reduce in 2017/18 and therefore there is funding security for the next three years, even if further rewards are not achieved in subsequent years. It is clear that the Council needs to focus on regeneration and over the next 3 years promoting both business investment and new homes is key to the Council achieving stable finances.

Council Tax Policy

The Council's Members agreed to accept the Government's offer of a grant (equivalent to a 1% rise in Council Tax) in return for freezing the 2015/16 Council Tax rate for another year at £161.19 (Band D).

Other Factors affecting the Revenue Budget

Income: There continues to be pressure on existing income sources however with the development of the new link road between Bexhill and Hastings, it is hoped that planning income will increase in the short term. The take up of the chargeable garden waste service has exceeded expectations, although the annual charge does not cover the contractual cost of the service. Other fees and charges will be maximised within market constraints.

Savings and Service Resetting: The Council delivered annual savings of over £4m since 2010 with a further £800,000 in 2015/16. For 2015 the main contributors were reduced contract and running costs (£0.5m) and additional income (£0.3m). Ensuring the delivery of these savings is paramount to ensure the Council's reserves are not further depleted.

Use of Reserves: The draft budget expects to use £322,000 of reserves of which £289,000 relates to meeting specific costs, the balance in lieu of savings to be identified. Additionally the Council approved setting aside the additional £275,000 of New Homes Bonus grant receivable in 2015/16. The Council predicts to have total revenue reserves of approximately £9.3m by the end of March 2016.

It is not financially prudent to continue to rely upon reserves to support on-going revenue expenditure, despite comments from Government Ministers to the contrary. Over the last 5 years the Council has used its reserves to fund investment in improving services (e.g. help points/contact centre), increasing efficiency (invest to save projects) and investment in the district (e.g. community grants). Additionally, specific reserves have been used to meet the loss of investment income since 2009 rather than provide a general support to the Revenue Budget.

Overall Revenue Position

The total net spend for the Council is estimated at just under £12m for 2015/16 after use of reserves. Due to the continued reduction in Government funding the Council needs to continue with its significant programme of change to secure a balanced budget. Already in place are measures such as the redirection of staff to higher priority and activity areas, close monitoring of income streams and recruiting posts on fixed terms to maximise flexibility over the size of workforce.

For 2015/16, it is expected that the Council will utilise further reserves to meet the shortfall in funding. However, as described above, this can only be done as part of an overall plan to deliver additional income and savings during the next 4 to 5 years. In setting performance targets and agreeing service improvements, the Council will need to decide the balance between what is desirable and what is deliverable with the resources available, and also what is most essential and valued by our residents. The current MTFS is being reviewed to take the above issues into account.

Forecast Financial Position 2015/16 to 2017/18

The Council's medium term budget forecast has been updated and shows a shortfall of £3m over the next five years depending on inflation expectations.

Further savings will need to be delivered and it may be necessary to increase the amount taken from reserves in the short term. An integral part of the Council's Corporate Plan review, is to ensure the Council is clear as to the nature and scope of its services that can be delivered within the available resources. Whilst the current MTFS remains robust and already identifies the scale of the financial challenge facing the Council, it is necessary to update it to reflect fully the Council's current financial position and decisions made by Members as part of setting the 2015/16 Revenue Budget.

Capital Programme and Asset Management

The latest Capital Programme (2015/16 to 2018/19) totals £2.7m and is fully funded. Whilst there remain some final costs from the Next Wave project to be paid in 2015/16, the remainder of the Programme is relatively limited in value due to the amount of available funding. The Programme mainly consists of supporting the disabled facilities programme and community grants scheme. It is likely that any future Council capital investment will rely of borrowing. Therefore future spending decisions will require greater consideration to the affordability of any proposal, particularly for socially/public realm based projects.

The existing Capital Strategy forms part of the Medium Term Financial Strategy (MTFS) and again will need to be updated to reflect the development of any new projects within the Corporate Plan.

There is a fundamental link between the Council's capital programme and resources with how the Council manages its major assets. A review of the Council's Asset Management Plan will be undertaken this year but it is clear that the Council needs to be increasingly proactive in acquisition and disposal of assets to support continued investment in the development of the district and to ensure the Council's portfolio of assets supports the achievement of its aims and objectives.

Without releasing assets for disposal or entering into borrowing the Council is very restricted in its ability to continue its investment in the District at a level achieved in previous years. The financial pressure on the Revenue Budget means that it will be difficult to meet the cost of any borrowing unless savings can be achieved or additional income secured. Other sources of funding will be explored as opportunities arise, but again it should be recognised that most funding bodies require a high degree of match funding before supporting a project.

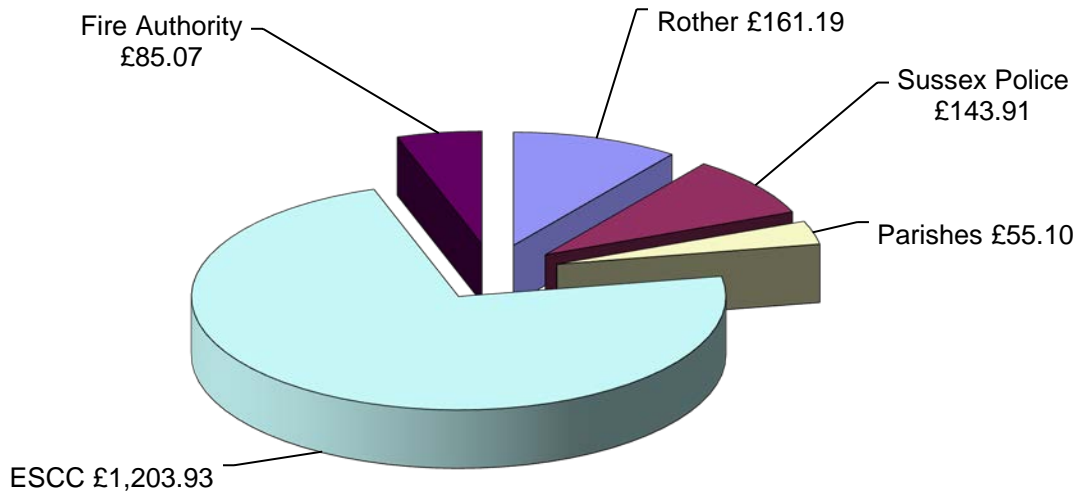

Further Information

It is hoped that this introduction combined with the detailed information that follows provides sufficient information for the reader to understand the Council's finances and its future financial prospects. Should you however require further information please contact:

ADDITIONAL INFORMATION 2015/2016: SPECIAL EXPENSES

Rother has decided that the costs of the functions shown below are special expenses to be charged only on the areas of Bexhill and Rye. These functions are provided elsewhere in the District by a Parish or Town Council. The costs are added to the local precept of each area for the calculation of Council Tax.

Heading	£
Bexhill	
Bexhill Parks and Games	641,992
Bexhill Allotments	17,610
Christmas Lighting	17,340
Bexhill Museum	9,460
Bus Shelters	9,320
Bexhill Town Forum	4,270
Less: Council Tax Support Grant	(47,507)
	652,485
Rye	
Rye Parks and Games	48,370
Christmas Lighting	1,580
Rye Museum	630
Bus Shelters	610
Less: Council Tax Support Grant	(2,445)
	48,745
Total Special Expenses (excl. Parish Precepts)	701,230

Notes:

1. Capital charges attributed to the above services are not charged as special expenses
2. All Parish Council precepts on the General Fund are Special Expenses chargeable only on the originating Parish

Audit

The formal review of activities by people or agencies not otherwise responsible for those activities. Originally used for the periodic review of financial transactions but now increasingly used also for any independent review, usually ad hoc, of any activities.

Band "D" Equivalentents

This term relates to one of the Council Tax valuation bands (see Council Tax). The bands "A" to "C" and E to "H" are weighted to the equivalent of Band "D". This derived Band "D" equivalent is used as a basis for calculating the Council Tax.

Best Value

This is the duty (implied but may be made statutory) which local authorities owe to their stakeholders to provide relevant, cost effective services.

Billing Authority

This is an authority such as Rother which is responsible for collecting the Council Tax and the Non Domestic Rates.

Budget

A statement of Rother's plans for revenue or capital expenditure over a specified period of time. The annual budget is prepared as part of the Council's annual Council Tax setting process.

Capital Charges

This is a depreciation charge for the use of tangible and intangible fixed assets. Capital charges are borne by the service revenue accounts, but reversed out to ensure they have no impact on the level of Council Tax.

Capital Expenditure

This is expenditure on the acquisition of assets, or expenditure which adds to and not merely maintains the value of an existing asset. The Local Government Act 2003 defines capital expenditure as 'expenditure that falls to be capitalised under proper practices'. In practice the Council follows the various regulations issued by the Government and the Accounting Code of Practice. Expenditure outside this definition must be charged to the Revenue Account. A fixed asset is one which generally yields benefits to the local authority for a period exceeding one year.

Capital Finance

This is the raising of money to pay for capital expenditure, for example by borrowing, leasing, capital receipts, revenue or grants.

Capital Programme

This outlines the capital schemes that the Authority proposes to undertake over a set time; Rother has a three year capital programme.

Capital Receipts

These are monies received from the sale of fixed assets.

Centrally Managed Costs

These are made up of administrative buildings and office services

Collection Fund

This fund is administered by each billing authority and all proceeds from the Council Tax are paid into the fund to meet the net budget requirements of the County Council, Police Authority, District and Parish Councils for the area.

Council Tax

Council Tax is paid on most residential properties in a local authority's area. Properties are valued within eight valuation bands (A-H).

Council Tax Reduction Scheme

Introduced in April 2013, this locally defined scheme helps those on low incomes to meet their Council Tax. It replaced the Council Tax Benefit scheme.

External Interest

External Interest consists of payments to financial institutions in respect of interest incurred on borrowing undertaken to fund the activities of the authority.

Fixed Assets

These are tangible, intangible and infrastructure assets that yield benefit to local authorities and the services it provides for more than one year.

Growth

An increase in expenditure not due to inflation.

Housing Benefits

An allowance to persons on low or no income to meet either the whole or part of their rent. Benefit is allowed or paid by local authorities but Central Government refunds part of the cost of the benefits and contributes to the administrative costs of the service.

National Non Domestic Rates

These are paid on commercial, business and non residential properties. The Government determines the level, although the Council is responsible for its billing and collection. From 2013/14 the Council will retain part of the business rates it collects based on a formula set by Government. The balance is part to the Government, East Sussex County Council and East Sussex Fire and Rescue Authority.

Other Apportionable Overheads

These are costs which are of a necessity and/or benefit to most services and include bank charges, Audit Commission fees, pre-printed cheques and the costs associated with the Data Protection Act. Where it is not possible to identify the main beneficiary of the cost then a pro rata basis of apportionment is made.

Precept

This is the levy made by precepting authorities (such as East Sussex County Council, Sussex Police and Crime Commissioner and the Fire Authority) on a billing authority (Rother District Council), requiring the latter to collect.

Provisions, Reserves and Balances

These are amounts set aside in one year to cover expenditure in the future. Provisions are for liabilities or losses which are likely or certain to be incurred, but the amounts or the dates on which they will arise are uncertain. Reserves are amounts set aside which do not fall within the definition of provisions and include general balances which every authority must maintain as a matter of prudence.

Recharges

The local authority accounting code of practice requires that all support costs be fully recharged to services.

Revenue Expenditure

This is expenditure on the day to day running of the authority, for example staff costs, premises related expenditure, transport and supplies and services.

Revenue Support Grant (RSG)

This is a grant paid by Central Government in support of general net revenue expenditure. The amount is calculated to make up the difference between an area's formula spending share and the sum of resources obtained from National Non Domestic Rates and the Council Tax.

Service Level Agreement (SLA)

An agreement made between the Council and an external service provider e.g. Citizens Advice Bureau, in addition to agreements made between services within the Council, which state the price and specifications of the support service by one to another.

Supplies and Services

Equipment and materials, protective clothing, office furniture, advertising and publications, fees for professional services.

Support Services

Computer services, financial services, legal services, personnel services, property management, office services, and office accommodation.

Total Costs

The principle that all unit costs and other comparable costs should include apportionments of all overheads and support service costs.

Virement

This is the permission to spend more on one budget head when this is matched by a corresponding reduction on some other budget head. Virements must be properly authorised by the appropriate Committee or by officers under delegated powers.
