Received 28/11/2019

Responded 17/12/2019

### Request/Response

How many stray dogs entered pounds between 1st January 2014 and 28th November 2019? **370**

- How many of these were reclaimed by their owners? **260**
  - How many were adopted from the pound? **111**
  - How many went to an animal rescue centre? **0**
  - How many were euthanised? **2**
  - What happened to any remaining dogs that did not fall into the above categories? **0**
- Do you keep any records as to the breed of the dogs?

The Local Authority maintains a dog register of all seized dogs and it details the breed a dog most looks like. But because of the way the records have been retained we would not be able to cross reference breeds to figures. For example, the most common breed of dog to become lost.

Please could you break this information down by year?

The above figures are recorded thirty days after the found dog report.
